**OBJECTION TO SETTLEMENT &  
EXCLUSION TO CLASS**

---

1. The Release is too broad and general. It covers claims that I have that I don't want to waive or release. It covers claims that I have that were not litigated in the Complaint. I have claims concerning the warranty, habitability claims, retaliation claims, and no violation disclosures.
2. The settlement monies to the named Reps are disapportionate to the class recoveries.
3. The recovery should be double my deposit not \$100.

4. The attorney fees are high for the class recovery.
5. I will appear at the hearing either through counsel or myself.
